

## ORDERING GUIDE

Covering almost any design need, our component offerings have been specifically designed to simplify the ordering process. Follow these basic steps to determine the system components you need from the facing page.

### Step 1) Select your desired rail lengths and connectors:

#### A) Rail

Total Length Needed (in Ft) \_\_\_\_\_ ÷ by 8 = \_\_\_\_\_ QTY 8 Ft Sections

R12-RAIL8

OR

Total Length Needed (in Ft) \_\_\_\_\_ ÷ by 4 = \_\_\_\_\_ QTY 4 Ft Sections

R12-RAIL4

#### FINISH

- BR  
 SN

#### B) Live Rail Connectors

QTY Rail Sections \_\_\_\_\_ ÷ 2 = \_\_\_\_\_ QTY Live Rail Connectors

R12-ICONN

#### C) Isolating Rail Connectors

QTY Power Supplies Per System \_\_\_\_\_ - 1 = \_\_\_\_\_ QTY Isolating Rail Connectors

R12-DCONN

#### D) End Caps

QTY Systems Ordered \_\_\_\_\_ x 2 = \_\_\_\_\_ QTY End Caps

R12-NDCAP

### Step 2) Select the supports for your Monorail:

#### A) For Standard Flat Ceiling

Total Length of System \_\_\_\_\_ ÷ 2 = \_\_\_\_\_ QTY Rigid Standoffs

R12-STAN1

#### B) For Sloped Ceiling

Total Length of System \_\_\_\_\_ ÷ 2 = \_\_\_\_\_ QTY Swivel Standoffs

R12-STAN2

#### C) For Cable Suspension

Total Length of System \_\_\_\_\_ ÷ 2 = \_\_\_\_\_ QTY Adjustable Cable Supports  
(For cable lengths over 2 Ft, also order Flexible Feed Cable)

R12-CBL60

R12-FLX60

#### D) To Increase Height of Standoffs

QTY of Rigid or Swivel Standoffs \_\_\_\_\_ = \_\_\_\_\_ QTY Extension Posts  
(Choose your height)

R12-EXT06

R12-EXT12

R12-EXT18

### Step 3) Select the appropriate power supply:

#### A) When the Power Supply is local to the monorail and is magnetic

Total Load (Watts) \_\_\_\_\_ ÷ 300 = \_\_\_\_\_ QTY Magnetic Surface Transformer

R12-SM300

#### B) When the Power Supply is remote and is electronic

Total Load (Watts) \_\_\_\_\_ ÷ 300 = \_\_\_\_\_ QTY Electronic Remote Transformer  
Plus Remote Feed Canopy

R12-RD300

R12-REMFC

#### C) When the Power Supply is remote and is magnetic

Total Load (Watts) \_\_\_\_\_ ÷ 300 = \_\_\_\_\_ QTY Electronic Remote Transformer  
Plus Remote Feed Canopy

R12-RM300

R12-REMFC

### Step 4) Choose your elements:

All the elements on the following pages, both spotlights and pendants, are suitable for use on Besa Monorail, using series #RSP (for spotlights) or #RXP (for pendants).
